FOR IMMEDIATE RELEASE

CMMS Provider eMaint Enterprises Expands UK Support through Partnership with SimpliSys

Marlton, NJ (Vocus) September 22, 2010 -- eMaint Enterprises, a leading provider of Computerized Maintenance Management Software (CMMS), is pleased to announce a partnership with SimpliSys, a U.K. based value-added reseller of web-based Help Desk and Customer Relationship Management (CRM) software and support service.

This partnership came about when SimpliSys sought a CMMS provider to expand their current product roster of Help Desk, Service Desk and CRM software solutions. They were looking for a [CMMS program](#) that was web-based, customizable, and affordable, offered flexible configurations, as well as a provider that delivered excellent customer support. After reviewing available CMMS options, SimpliSys determined that eMaint's X3 CMMS was a match to their requirements and proposed a partnership with eMaint Enterprises LLC. Gene Pargas, vice president of Business Development, was delighted to pursue the partnership, noting "I am confident that SimpliSys' commitment to providing complete solutions and superior service to clients makes them a great fit to represent eMaint and provide local support for our customers in Europe."

After traveling to the United States for intensive training on eMaint's X3 [CMMS software](#), SimpliSys implemented their first CMMS system at Trinity Hall of Cambridge University. Russell Waller, head of Building and Services at Trinity Hall, explained that eMaint's ease of customization, working together with SimpliSys, and subsequent ease of use made it a logical replacement of their outdated system for managing over 1600 assets across multiple locations within the university. The Fix It Squad, headquartered in Dubai, recently came on board as a SimpliSys customer, using eMaint CMMS to manage [work requests](#) and maintenance scheduling.

In an effort to increase online awareness of local support for eMaint X3 CMMS through SimpliSys, eMaint has re-launched its website in the UK. Additionally, SimpliSys will be attending Maintec 2011, a trade show for maintenance professionals in the manufacturing and food processing industries, held in Birmingham in March, 2011. Peter Lench, Director of SimpliSys Ltd, notes that future plans call for expansion into Poland where a SimpliSys office has recently been added.
